BookMyTicket

User-manual

ABSTRACT

The "**BookMyTicket**" project is a mobile application designed to streamline the movie ticket booking process, providing users with a convenient and efficient way to secure tickets. The application offers features such as user registration, movie listings, seat selection, secure payment options, booking confirmations, and finding theaters. Leveraging modern technologies and an intuitive user interface, "**BookMyTicket**" addresses the inefficiencies and inconveniences of traditional ticket booking methods. This project aims to enhance the movie-going experience by simplifying the booking process and providing valuable information at users' fingertips.
